*Informatics College Pokhara
Bachelors in Information Technology*

Feb 2022 - Dec 2024

TECHNICAL SKILLS

*Programming: JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS
Software & Tools: Backend: Node.js, Express.js, REST APIs
FrontEnd: React.js, Vite.js, Redux, Bootstrap, Tailwind CSS
Others: MySQL, Sequelize, Git, GitHub, WebSockets, JWT Authentication, Payment Gateways*

PROJECTS

Multi-Vendor E-Commerce Platform

- Developed a scalable e-commerce web application supporting multiple vendors and product categories.*
- Integrated features like user authentication, cart management, order tracking, and admin vendor dashboard.*
- Implemented role-based access and secure payment gateway integration.*

Coffee Shop Management App

- Built a system for coffee shop staff to take customer orders, manage inventory, and track customer memberships/subscriptions.*
- Staff can view membership consumption, validate free rewards, and manage subscription statuses.*

Personal Portfolio Website

- Created a clean, responsive personal website to showcase projects, skills, and contact details.*
- Optimized for fast load times, mobile compatibility, and modern aesthetics.*

WORK EXPERIENCE

Aankhijhyal Technologies, Pokhara

February 2024 – November 2024 Full Stack Developer

- Worked on developing and deploying various Discord bots tailored to client needs.*
- Ensured bots were scalable, efficient, and easy for non-technical users to interact with.*
- Worked on a web-based service-selling platform where users could browse and purchase various services.*
- Tech stack included React.js, Node.js, TypeScript and MySQL.*
